

## Feature and Benefit

- Brings a touch of country life to your home. The **textured finish on the Normandy stained hardwood shutter** blends the tranquility of nature with distinctive luxury.
- Normandy is treated with **Prescription Wood Conditioning™** technique according to the moisture content of the final installation location to reduce post-installation shrinking and swelling.
- A wide range of **frames with inserts** that keep installation screws out of sight for a clean and decorative look to match your style and preference.
- **Reinforced engineered stile** -- Multiple layers of wood bonded together to reinforce durability to the core of the stile, which results in a robust support system for your shutter panel.
- Multiple stile options available in various sizes to accommodate different window designs. Use **Astragal or Rabbet stile** as a natural light block between panels.
- Employs **mortise and tenon joinery** that resists shear and racking forces endured by shutters to ensure prolonged quality and durability.
- Enjoy swift and easy on-site installation with the **pre-installed magnets and hinges**, as well as **pre-mitered frames and slotted keyholes**.
- A labor-intensive **hand finishing process** that involves **multiple sandings and coatings** with fine layers of stain or paint.
- Personalize your shutters with **special options**. Choose from hidden or offset tilt rod, double hung panels, café shutters, track systems, specialty shapes and many more.
- **Special panel and frame design** that is finely crafted to accommodate your unique window. Create unity or attract attention with Normandy's exclusive decorative elements.
- Available in a **wide range of bright, invigorating solid and stain colors** that harmonize into the style of your home.
- A guarantee of Norman Shutters' exemplary quality with a **lifetime limited warranty on materials and workmanship**.
